

To Whom It May Concern:

Website Design by Scarlet Zebra

When Russell Hobbis Architects finally decided to get out there on the World Wide Web we sought references from our IT contacts and were directed to Zena at Scarlet Zebra. After the initial meeting there seemed little point in going elsewhere.

Zena worked with us from the outset and appreciated our requirements at an early stage. We knew next to nothing about website design and Zena guided us through the processes with a calm and patient hand. Despite our requests for old fashioned systems she steered us towards a modern and clean looking site which turned out to be just what we needed. The site is simple to navigate and showcases what and who we are. Zena has accommodated our whims and fancies as if they were everyday occurrences.

Below are a couple of quotes that we received;

Nice site – clear, concise, easy to navigate and most importantly gets your message over....

Very good - Welcome to the 21st century!

Very nice website. Informative and uncluttered

We are delighted with our new website and would recommend Scarlet Zebra to anyone considering a new or update to their website.
